Consultation on the Proposal to Create Two Separate Primary Schools

Dear Colleagues and Community Partners,

I am writing to inform you about an important proposal regarding the future of Endeavour Primary School.

As a valued partner of our school, we wanted to ensure you are aware of our proposal and have the opportunity to share your views as part of our consultation process.

Endeavour Primary currently operates across King campus and Kirk campus. Endeavour was originally created through the joining together of two separate primary schools. I'm really proud of our achievements since then, working within our community to grow Endeavour into a thriving and vibrant school

Running what is effectively two schools within the framework of a single school has come with significant advantages, but also has some important downsides:

- We are judged and inspected by Ofsted in operating and providing complete consistency across both sites. This means we cannot always tailor what we deliver or how we deliver it to the specific needs of each community. For example, if one campus has a greater need for reading support, we cannot easily direct resources and different programmes just to that campus.
- The funding we receive from government is based upon having one school, with the expectation that there is one building/campus to run. There are significant additional costs to running two campuses, meaning that (less overheads) we have less money to spend than we would gain as a single site.

Following our move into Inspire Learning Partnership, the leadership team has been able to explore opportunities that were previously not possible. The additional capacity, support and financial stability that comes with being part of the Trust has enabled us to consider how we can best meet the needs of our pupils and communities in the years ahead.

We are therefore launching a consultation on a proposal to establish two separate primary schools, one on the King Campus and one on the Kirk Campus.

Importantly, this proposal is not about closing a school**.** Both campuses would remain open and continue to serve their communities as the one school does now. The proposal would create two standalone schools, with a shared catchment area and no reduction in provision or school places, whilst maintaining close collaboration and partnership working between the two sites and other local Andover schools.

Potential benefits include:

- Additional funding across both schools.
- Increased investment in teaching, learning resources and pupil support.
- Decisions about children, staffing and resources could be made closer to the pupils they affect helping us provide the right support, in the right place, at the right time
- Enhanced opportunities for enrichment activities, experiences and community partnerships.
- Retain the current strong collaboration work between the two sites

No decision has been made at this stage. The purpose of the consultation is to gather views and feedback from all those with an interest in our school communities before any final decision is considered.

The Admissions Code of Practice 2012 requires an Admissions Authority to consult each time it proposes to make significant changes to its admissions arrangements. The Inspire Learning Partnership (ILP) is the Admissions Authority for the family of Academies within ILP and, as such, administers the admission arrangements on behalf of the Academy Council of Endeavour Primary School. We are therefore taking this opportunity to also consult on a change to our catchment area to be in effect from September 2028. Please see Appendix A for the proposal.

Consultation Meetings

Stakeholders are welcome to attend either of the following consultation meetings:
Kirk Campus: Wednesday 11th November 2026 8:30am - 9:15am
King Campus: Friday 13th November 2026 2:45pm - 3:30pm

Sharing Your Views

We are keen to hear the views of our wider community and local partners. Alongside the consultation meetings, stakeholders can share feedback, ask questions and submit comments through our consultation questionnaire:
Endeavour Primary School Consultation Form – Fill in form

The consultation will remain open until 12.00 (noon) Friday 27th November 2026. All feedback received will be carefully reviewed and considered as part of the decision-making process. As organisations and individuals who contribute significantly to the life of our school communities, your perspectives are important to us.

We believe this proposal presents an exciting opportunity to strengthen educational provision across both communities while ensuring long-term sustainability and continued partnership working. Further information is available on our website.

Thank you for your continued support of Endeavour Primary School. We are committed to keeping stakeholders informed throughout the consultation process and welcome your feedback.

Kind regards,

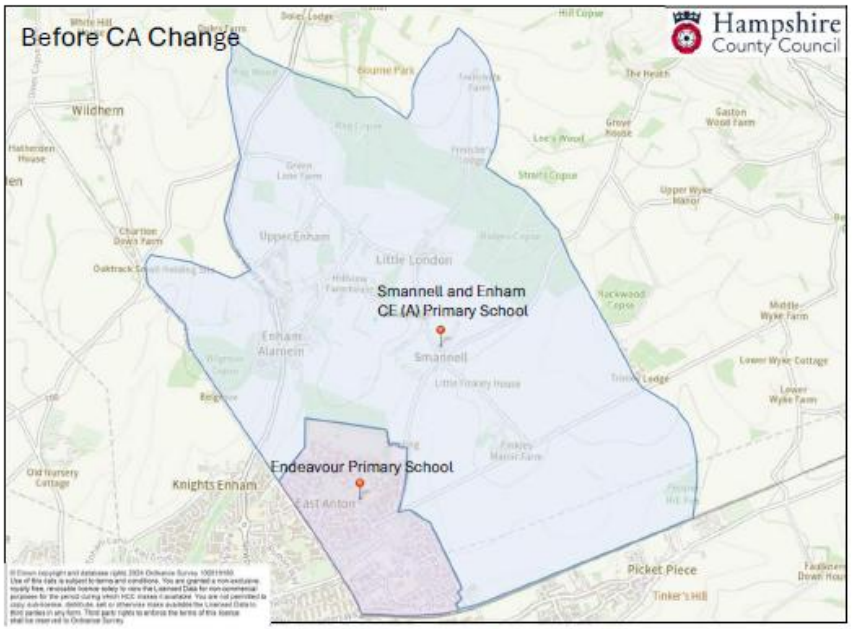

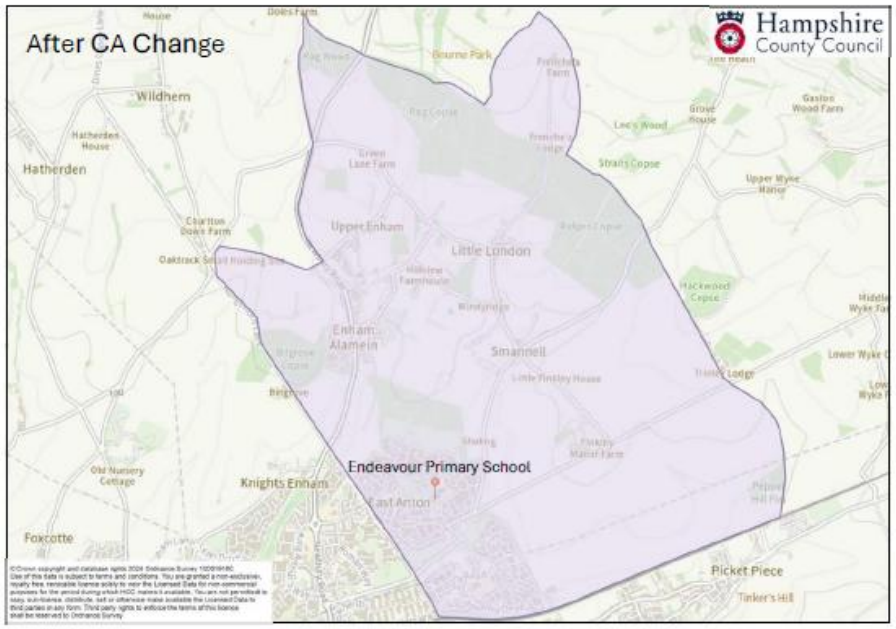

Helen Palmer
Headteacher, Endeavour Primary School

Claire Lowe
Chief Executive Officer, ILP

Appendix A

Maps showing the incorporation of Smannell and Enham CE (A) Primary School Catchment Area into the Catchment Area of Endeavour Primary School

The proposal is to expand the catchment area of both sites to include those homes that were in Smannell and Enham Church of England (Aided) Primary School's former catchment ensuring that those houses have catchment priority at another local Hampshire school. The background of this proposal relates to the closure of Smannell and Enham Church of England (Aided)

Primary School effective from 27 March 2026. Smannell and Enham Church of England (Aided) Primary School is 0.83 miles from Endeavour Primary School. The proposed change to incorporate Smannell and Enham Church of England (Aided) Primary School's former catchment into the catchment area for Endeavour Primary School will minimise any impact on pupils and families and data analysis confirms that Endeavour Primary School has sufficient capacity to accommodate the pupils from that area.
